### The Water of Tallaha Springs.

Many people think "water is water," and that is all there is of it. However, a careful study is not needed to discover that, while some drinking waters are agreeable to the taste and grateful to the stomach and are conductive to health, other waters are far from having these desirable qualities. A pure natural water is one which is perfectly free from organic matter in solution, and in which exists certain minerals nicely balanced as to quantity and proportion to meet traction company to build a viaduct over do become possessed of them. The das best adapted to our bodies are not the procured, and pure natural water, is first and most important of all foods, is the searched for, for its value is pond the value of gold. #### SCARE STORY EXPLODED.

Lead Weight and Piece of Rope.

The mystery surrounding the finding of the bomb-like contrivance in E. Helfe's carriage warehouse, in Capitol avenue, opposite the State House, has been solved, and there is no longer any suspicion resting against a discharged employe. The "bomb" is of cylindrical shape, ten inches long, capped at both ends, with a "fuse" protruding through hole in one of the caps. The employ found it in the building and the police were called. It was carried to the police station and locked in a strong-room in could be made to take it in the country and "touch it off." The "bomb" is now back in Mr. Helfer's office. It was his property, and he wanted it.
